

Importing Groups from KAMAR

Exporting student data from Kamar School Management System

From the main screen go to [**Printing**] > [**Export**] > [**Group Tab**]

You can choose from **My Groups** if you setup the groups or select **Groups by Type > Sport > Select Sports**, if someone else setup the groups.

The screenshot shows the KAMAR School Management System interface. At the top, there is a menu bar with 'File', 'Edit', 'Navigate', and 'Help'. Below this is a header area with a logo on the left and a 'Students' button on the right. The main content area is titled 'Main Menu > Search'. It contains a search bar with the text 'Find **Attending** students, **sorted by** students name'. Below the search bar, there is a section for 'Current Search Title...' with a 'Clear' button. To the left of the main search area is a list of 'Saved Searches...' including 'Current Search', 'Last Search', and several other searches like 'ams8', 'Arthur', 'bates', 'biddle', 'carter', 'dylan', 'Junior enrolled in 2013', 'mer', and 'noea 2008'. The main search area has a 'Search Type' section with radio buttons for 'Or' (selected) and 'And'. Below this, there is a 'Filter' section with a dropdown menu showing 'My Groups', 'Groups by Type', and 'All Groups'. The 'My Groups' option is highlighted, and a list of groups is shown below it, including 'Mountain Biking'. The interface also shows a '0 Group(s) Selected' message.

The fields you need to export should match the entry form

The easiest way to do this is setup a search that exports all data, and save that search so you don't have to select the fields all the time. Then export the data to csv/xls file and delete the columns you don't need

These fields should cover most of what is required

- Student ID (Should already be selected)
- First Name (Should already be selected)
- Surname (Should already be selected)

- General > Gender
- Date > Date of Birth
- Date > First Attendance
- Timetable > Year Level
- Ministry > Previous School 1 Name
- Caregivers > PCG One Name (eg. Mother)
- Caregivers > PCG One Phone Home (eg. Mother)
- Caregivers > PCG One eMail (eg. Mother)

Click [**Export**] and save the file.

Main Menu > Printing > Export

Column Headings File Format: CSV

Current Export Title... Clear

Saved Exports...

- Current Export
- Last Export
- NCEA Update
- NZQA - NCEA Summary 08
- Time table building

Category: Caregivers Toggle

PCG One Phone Home (eg. Mother)

PCG One Phone Work (eg. Mother)

PCG One Relationship (eg. Mother)

PCG One Status (eg. Mother)

PCG One Work Address (eg. Mother)

PCG Two Address (eg. Father)

PCG Two BoT Flag (eg. Father)

PCG Two Copy of Report (eg. Father)

PCG Two eMail (eg. Father)

PCG Two Language Spoken (eg. Father)

PCG Two Name (eg. Father)

Export Order

- ID Number
- Surname (Preferred)
- First Name (Preferred)
- Gender
- Date of Birth
- First Attendance
- Year Level
- Previous School 1 Name
- PCG One Name (eg. Mother)
- PCG One Phone Home (eg. Mother)

Once you have exported the data to excel, rearrange the columns to match the entry form, then select the data, copy and click on Import Player Data in EnterNOW

	A	B	C	D	E	F
1	Surname (Preferred)	First Name (Preferred)	Gender	First Attendance	Date of Birth	Year Level
2	Brown	John	M	28/01/2014	27/10/2000	9
